

# Nine Innovative Watches From Independent Brands At Baselworld 2013

## Royal Black Caviar by York

This watch comes with all of the pomp one would expect from a watch brand fronted by Earl York, a prince of the former Schaumburg-Lippe, a tiny principality in the Lower Saxony region of modern-day Germany. The watch comes in a handcrafted Wenge case that includes a caviar service for two. However, this timepiece is more than just packaging. It is a serious traditional watch created by the Schaumburg Watch company, which York serves as creative director and a shareholder. The 18k, 44mm gold case is topped by a bezel set with 53 black diamonds and five black diamonds on the crown. The black textured strap is made of indo-pacific stingray leather with a textured finish that looks like caviar eggs. The mechanical movement SW 07 is made in house. It is available in a limited edition of 99.
